

CRAZY 8's GAME RULES

Set Up:

Pass out 5 cards faced down to all players. The remaining cards are placed in the center of the group. The top card from the center is flipped over and placed next to the pile.

If the first card is an 8, the 8 is placed somewhere in the middle of the pile and a new starter card is flipped over.

How to Play:

Players try to get rid of their cards by placing them on top of the flipped up card in the center. Players may do so if the card they want to get rid of is the same number or suit of the card flipped up. 8s are wild and if a player plays an 8, they must state what suit the 8 will be for the next player. If a player cannot place any of their cards on the one in the center, they must draw cards from the pile until they can do so or until they've drawn a maximum of five cards.

Scoring:

After a player gets rid of all of their cards, the round is over and points are tallied. Cards remaining in players' hands are counted as the following point values:

Cards 2 through 9 (except the 8) are worth their face value

Aces are worth 1 point

Cards 10 through King are worth 10 points

8s are worth 50 points.

Once a player reaches 100 points or above, the player with the lowest number of points wins the game.
